

Hanseatic League of Despots

The Welf bloodlines or Hanovers and Estes are economic tyrants and financiers of human trafficking networks. The Hanovers and Estes originated from the same Welf clan that ruled in Northern Italy and Germany with ancestry from the old French dynasties like the Burgundian family. The colors burgundy and royal purple are symbols used by royalty since ancient Phoenicia as purple was the most expensive color to produce. Many top bloodlines have ancestry from the House of Burgundy like the Savoys which ruled in Northern Italy and they intermarried with the Estes. Welf is where the term Guelph comes from and this noble faction were wealthy merchants that sided with the Papacy. The Hanovers ruled the British Crown with King George I of Great Britain. The Welf family established the Hanseatic League through Henry the Lion which was an alliance of merchants and royal families and they established the Free and Hanseatic City of Hamburg. M. M. Warburg & Company headed up by Max Warburg operates in Hamburg. Hanseatic Bank is a bank headquartered in Hamburg Germany and partly owned by Michael Otto who is worth 16 billion. The Berenberg and Gossler families were Hanseatic merchant bankers that own and founded Berenberg Bank located in Hamburg and currently headed up by Hans Walter-Peters. The House of Este ruled in Modena, Ferrara, and Reggio. The Ferrari family come from Modena and Ferrara and they are really a cadet branch of the Este and Farnese family through the marriage of Vittoria Farnese d'Este of Modena. The Farnese family use the horse on their coat of arms and the Ferrari car company founded in Modena by Enzo Ferrari uses the horse for its logo. Piero Ferrari is worth over 2 billion and is a part owner of Ferretti Group which produces luxury yachts. The reason the Ferrari family are wealthy is because they were nobility. Royalty and nobility conspire through bloodlines to dominate society and monopolize wealth and resources. The Ferrero family own the Ferrero chocolate and candy company with Maria Franca Fissolo worth about 26 billion and her son and CEO of Ferrero Giovanni Ferrero worth 24 billion. The Ferrero family finance Jesuits. The Farnese family established the Jesuits through Allesandro Farnese or Pope Paul III. The Bourbon-Two Sicilies and Bourbon-Parma families are the continuation of the Farnese family today.

The names Ferrari, Ferrara, Ferrero and Farnese have the etymological connection with the Latin word frenum which means hold which derives from the Latin word fere which refers to a harness or horse's reins. Reign refers to control. Horses are symbols for military equestrians and the Farnese family have many connections with military. There is a horse on the Hanover coat of arms. Military is the primary way they enforce their control. I believe the Fer- and Far- families have some lineage with the Pharaoh dynasties. It is likely the Phoenecian royalty married with Pharaoh bloodlines. The Ferrari family are related with the former Este-Farnese Dukes of Modena and are worth several billion. The Ferrogamo family are also wealthy north Italians with a noble ancestry from Venice and Bergamo. The Ferragamo family originally set up in Hollywood providing expensive shoes and boots for actors and movies. The Italian and German nobility covertly monopolize high end automobiles, jewelry, and fashion. Prince Lorenz of Belgium is the head of the Italian-Austrian House of Este today and he works as a Swiss banker handling the private accounts and money laundering for various royal and noble families from Italy, Austria, Belgium and the UK. Prince Lorenz holds the title of Duke of Modena. Luigi Cremonini is a billionaire from Modena, Italy and owns a large meat production company called Cremonini Group. The Welf-Hanover family is also several times intermarried with the Leiningen family which use the same white eagle on their coat

of arms that the Este family use. The use of the Hanover family name Ernst appears to originate from the House of Leiningen. Prince Andreas, Leiningen is the head of this family today and his wife is Princess Alexandra of Hanover.

The House of Hanover are a branch of the Welf family of Germany who are closely related with the Italian-Austrian House of Este. Estee Lauder founded the cosmetic company which has assets at about 11 billion. She was likely named after the Este family as one of their court agents. Estee Lauder had Hungarian ancestry where the House of Este's cousins the Esterhazy family ruled. The Italian Fabrizio Freda is the CEO of Estee Lauder Companies. The Hanover family own castles, large estates, and art and silver collections. Prince Ernst Augustus Sr. of Hanover is married to Princess Caroline from the House of Grimaldi in Monaco. Prince Ernst Augustus Sr.'s father and grandfather were members of the Nazi party which this family has tried to cover up. Prince Caroline's son Andrea Casiraghi is from her previous marriage and he is married to the billionaire Tatiana Santo Domingo. The Santo Domingo Group is a large Columbian monopoly worth billions. Tatiana's brother Alejandro Santo Domingo is worth over 4 billion and is married to Lady Charlotte Wellesley of British nobility. Money marries money and this is one way these criminal royal families dominate over society. Prince Ernst Augustus Sr. is openly worth a half of billion which is just a cover for his concealed wealth. The billionaire Johnson family created Johnson and Johnson and are from New Brunswick New Jersey named for Brunswick Germany where the Hanover family ruled. Han in Hanover is for Johannes the German version of John. The Johnson family are an American branch of the House of Hanover. Johnson & Johnson has about 133 billion in assets. The Johnson family of Boston own Fidelity Investments with Abigail Johnson worth about 14 billion and Edward C. Johnson III worth about 7 billion. Fidelity Investments manages over 2 trillion in assets. The actress Anna Silk is from New Brunswick, Canada and the Hanovers finance child sacrifices to her. The Hanovers are part owners of the Bacchus motorcycle gang which are headquartered in New Brunswick, Canada.

Hapag-Lloyd is a German shipping company originally called the Hamburg American Line founded by the Amsinck family which were Hanseatic merchants connected with the Hanovers. Hapag-Lloyd is involved in human trafficking and is headed up by Rolf Habben Jansen its CEO. The royal and noble families are concealing large amounts of wealth through covert assets in corporations, land ownership, resource monopolization, and through private banking. They also create front men billionaires that serve their royal courts who carry out their interests in society in exchange for being authorized billionaires. This is how they monopolize society. The House of Hanover are a top German nobility which once ruled as monarchs in Britain and Ireland. Members of the House of Hanover are also in line to the British Crown and have close ties with the House of Windsor. The billionaire Woody Johnson was appointed as the Ambassador to the United Kingdom for his bloodline relation with the Hanover family. Rupert Johnson Jr. is worth 6 billion and is Vice-Chairman of Franklin Templeton Investments headquartered in New York City which has about 740 billion in managed assets. Rupert's brother Charles Johnson is worth about 4 billion. The actor Don Johnson and his investors were stopped and investigated at the German-Swiss border holding records of about 8 billion in transactions. Don Johnson and his son Jesse Johnson are involved with assisting in criminal financing in Hollywood. The Hanovers also manage the cannibalistic pedophile Dwayne Johnson. Prince Christian of Hanover is another wicked member of this bloodline. The names Este and Hanover have various etymological connections and the most related connection is expansion and above. Estense is an Italian word for expansive. Over in Han-over means above or exceedingly in German. Imperialism is about expansion. The name Augustus originates from

Augustus Caesar and Prince Ernst Augustus II of Hanover is like the Holy Roman Caesar today. These imperial bloodlines are greedy and ruthless tyrants.

Prince Ernst Augustus Sr of Hanover is an economic tyrant and financier of human trafficking. The Hanovers are some of the biggest financiers of child trafficking. They are extremely depraved and disgusting and they control trillions in wealth.

Prince Ernst Augustus Jr of Hanover is a financier for child trafficking and gang stalking. Prince Ernst Jr. and his brother Prince Christian are obsessed with women cannibalizing children and private parts. They are disgusting sodomites. Prince Ernst Jr. is a manager of the Nazi psychopathic gang stalker named Tom Rubendall. Tom Rubendall is a robotic and sadistic devil.

Prince Christian of Hanover is a financier of child trafficking and gang stalking. Prince Christian is intensely evil and depraved and this little twerp manages blond haired Nazi supremacists. He is vain, narcissistic, and is obsessed with cannibalizing genitals. He manages a Nazi gang stalking psychopath named Chris Huffman who wants to become the next Adolf Hitler. Chris Huffman is pure filth and bathes in excrement.

The stepping stone of the **Hanseatic League could be the "Artlenburger Privilege"**, introduced by Duke **Henry the Lion**, which stopped the murder and manslaughter between Low German merchants and their competitors from Gotland. He granted them the same rights in his Empire as the German long-distance merchants. For example duty-free treatment, protection and freedom based on mutual trust.

Anna Silk is an extremely evil actress from New Brunswick, Canada where the Bacchus Motorcycle gang is headquartered and they are child traffickers and Anna Silk is a child murdering cannibal and acts like a monkey. She basically throws excrement at anyone who disrupts child trafficking rings. She is a ruthless defiler. She thinks every man worships her and lusts for her which is far from the truth. She is an egomaniac. Anna Silk played a character of a psychic sexual parasite in a television show. That is similar to her real nature. She is also in the show Blood and Treasure which is a television show filled with Jesuit propaganda. There is a character that is a Jesuit priest in the show and they claim Jesuits are against the Nazis. The Nazi SS designed their order off the Jesuit order and the Nazis and Vatican had an alliance called the Reichskonkordat. The House of Hanover finance child trafficking networks to her. Anna Silk is extremely vain and narcissistic and thinks she has a right to murder children. Anna Silk rapes children, kills them, and then cannibalizes their private parts. She is disgusting. I don't want to talk about this. It needs to be said because its what they are doing and that is a major motivation behind the New World Order agenda. She has Turkish ancestry. The Turkish word for "Mother" is Anne and secret societies in Turkey worship Anna Silk as their "Mother." She manages a female gang stalker named Rachel Buyak who is very similar to Anna Silk in that she is obsessed with sexual cannibalism and is extremely narcissistic and egomaniacal and they both have Turkish ancestry. For Actor **Don Johnson, \$8 Billion Worth of Bad Publicity in Germany**

What was actor Don Johnson doing in a car in Germany last November with a **suitcase containing credit notes and other securities that customs officials said were worth \$8 billion?**

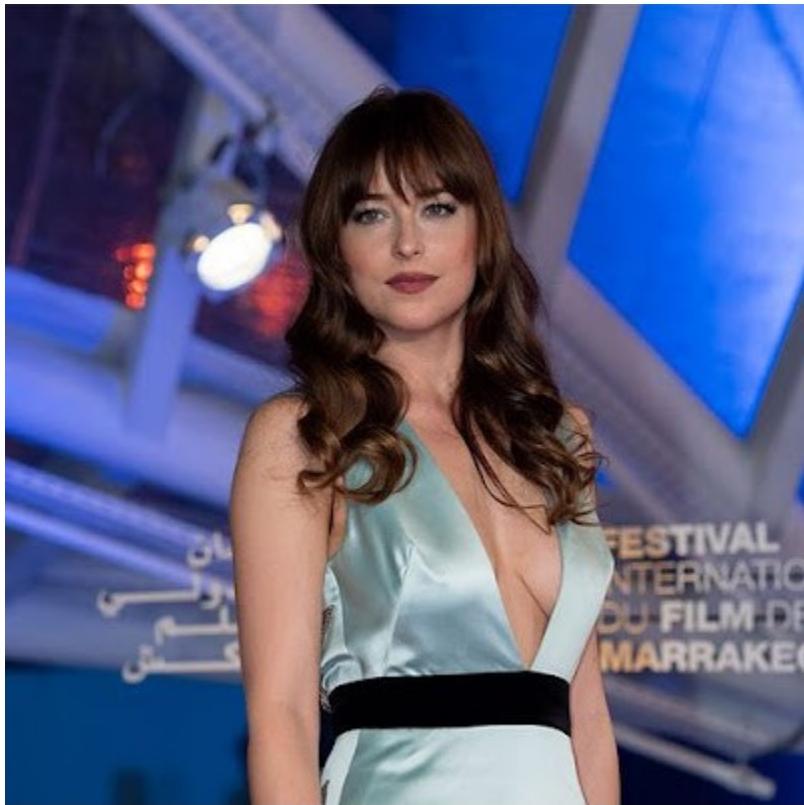

The Los Angeles attorney for the former star of TV's "Nash Bridges" and "Miami Vice" detective shows says Johnson, 53, was simply a producer trying to find film financing in Europe and that the "securities" were actually financial documents related to the deal.

Although German customs officials say they have no evidence that any crime has occurred, attorney Ronald Litz claims recent news reports about the case not only defamed his client but also caused the deal to unravel.

"The poor guy was just trying to get money for a film," Litz said. "The deal was about to close this week and now the investors are afraid he is involved in money-laundering. But the documents weren't his. They were the investors'.

Litz said they had **been in Zurich for a meeting with unnamed Americans, potential investors** in a slate of movies Johnson was to produce.

Elliot Mintz, Johnson's longtime publicist, said the actor **was en route to a Daimler-Chrysler plant in Germany to look at the new Mercedes-Benz Maybach luxury automobile.**
